

# 5/6- Sharing the Planet

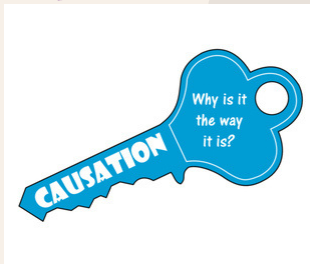

Term 1 Week 8 - Term 2 Week 4

**Central Idea:** *How we resolve conflict impacts the community*

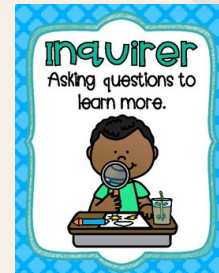

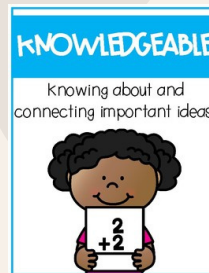

**Lines of Inquiry:**

- Causes of conflict
- Conflict resolution and management
- Living and working together peacefully

**Key Concepts:**

**Learner Profile:**

**Literacy:**

In Reading, students will explore how to find directly stated information in a text. They will investigate the processes for skimming and scanning, in order to identify information quickly and answer comprehension questions. They will explore how to make inferences, using clues from a text to infer a character's thoughts, motivations and feelings. In Writing, students are exploring the text features and language features of persuasive texts and how to embed persuasive language techniques to convince a reader. Students are exploring using digital tools to publish their writing. In Speaking and Listening, students will explore the pronunciation, spelling and how the meaning of words have evolved over time.

**Numeracy:**

In Numeracy, students will continue to develop their understanding of place value into decimal numbers and investigate estimation and rounding to check the reasonableness of their answers. They have begun to work with fractions by finding a simple fraction of a quantity where the result is a whole number. Students will also develop their understanding of measurement by choosing appropriate units to measure, compare, convert and solve problems involving length, area, volume, capacity, and mass.
