

Grade 3&4 Curriculum Overview – Unit 3, 2022

Unit of Inquiry

During this unit of inquiry 'Sharing the Planet', students will be learning about different countries around the world. Students will be inquiring into different geographical features, different Geographical features in Australia and the similarities and differences between countries around the world. They will be using their research skills to learn about a chosen geographical feature around the world.

Inquiry into Reading

As part of this unit of inquiry, students will be learning about the text structure of different types of text. They will work independently and collaboratively to find the function of each text feature in a range of texts, such as, procedural, information texts and explanation texts.

Inquiry into Writing

In writing this unit we will be focusing on procedural and information texts. Students will be able to build on their knowledge from reading to support them in writing procedural and information texts. Students will use key information they have learnt from their research. They will learn how to correctly structure a procedure and information text as well as include topic specific vocabulary.

Inquiry into Numeracy

During this unit of inquiry, students will be learning about multiplication and division. They will be learning different mental strategies to support them in solving these types of problems. In Measurement and Geometry, students will be investigating and reading different types of maps. They will be learning to read and write a set of directions from one location to another.
